SUMMARY:

I am a 5th-semester BTech Computer Science Engineering student with a strong interest in programming, software development, and emerging technologies. I have worked on projects like Smart Sort Selector and Cloud-Based Virtual Desktop Infrastructure, which helped me improve my technical and teamwork skills.

I Enjoy Sports and Fitness, and I like learning new tech, solving problems, and contributing to practical solutions. I am looking forward to gaining more hands-on experience through internships and project work.

SKILLS:

Languages: Java, Python, C, C++

Database: MySQL, JDBC

Frameworks/Tools: Swing (Basic), Git (Basic), VS Code

Core Concepts: OOPs, Data Structures, Database Management

EDUCATION:

Btech (CSE) | Graphic Era Hill University

CGPA: 7.5 | 2023-2027

XII (CBSE) | Baluni Public school

69% | 2022

X (CBSE) | Daffodills Public School

75% | 2020

ACADEMIC PROJECTS:

Smart Sort Selector – Python CLI tool recommending optimal sorting algorithm based on dataset analysis. Role: Team Leader, CLI logic & UI.

Cloud-Based VDI – Cloud-enabled virtual desktop setup with RDP access. Role: Full-stack integration & demo presenter.

SkillSwap App – MERN app for skill exchange with location and chat. Role: Backend & UI contributor.

ACHIEVEMENTS:

Finalist in internal college Hackathon for SkillSwap App (MERN stack project).

Captain of the Kabaddi State Level Gold Medal Winner Team.

Participated in coding contests and tech workshops.

HOBBIES AND INTERESTS:

Discovering new technologies

Sports and Fitness

Mentoring or helping peers
